

# Berechnung der Stromempfindlichkeit $c_I$

| Ausschlag [SKt.] | $I$ [mA] | $c_I \left[ \frac{\text{SKt}}{\text{mA}} \right]$ | $\Delta c \left[ \frac{\text{SKt}}{\text{A}} \right]$ | Abw. zu Fit [%] |
|------------------|----------|---|---|-----------------|
| 189.47           | 1.28     | 148023.0  | 2613.523  | 7.8059          |
| 147.47           | 1.01     | 146010.0  | 3303.414  | 9.2926          |
| 96.47            | 0.61     | 158148.0  | 5559.544  | 0.9045          |
| 54.47            | 0.31     | 175710.0  | 11215.136   | 9.1809          |
| 16.47            | 0.1      | 164700.0  | 34223.689   | 3.1099          |
